In fact, the Santa Fé, like the Rock Island, insists on an increased percentage, and the Southern Pacific is unwilling to accommodate either. With the arrangements it has in Europe to corral traffic, it can better afford to maintain its position than any other line. The lines from Chicago and St. Louis also refuse to accept less than they have had. All maintain that the question is one which lies between the Southern Pacific and Rock Island. Since the pool was established, conditions relative to immigrant business have greatly changed. The Santa Fé now has a line to San Francisco and the Rock Island has another to El Paso, which makes it stronger than ever before with respect to Pacific Coast competition.

(BY THE ASSOCIATED PRESS—A.M.)

CHICAGO, Oct. 7.—At the regular annual meeting today of the stockholders of the Chicago and Alton Railroad Company, H. D. Laughlin, a minority stockholder, who yesterday filed suit against the company, attackning the validity of the lease entered into between the Chicago and Alton Railroad Company, and the Chicago and Alton Railroad Company, and the Chicago and Alton Railroad Company, and the Chicago and Alton Railroad Company, on the Chicago and Alton Railroad Company, and directors will be accepted, thus disposing of the question.

The outgoing directors, Norman B. Ream, D. R. Forman, E. H. Harriman and George J. Gould, were redicated to succeed themselves.

Plans were considered for a closer affiliation of the Alton with the rest of the Harriman system, and it is thought possible that the Kansas City branch of the Union Pacific will be consolidated with the Alton. The same plan may prevail with the Kansas City and Southern Railway.

Secretary Maxson of the association made his annual report, which showed an increase of interest in irrigation report was a compresentative review of the history of pastirrigation congresses and of the agitation for and research and of the agitation for and research agita. an increase of interest in irrigation an increasity. The report was a comprehensive review of the history of past irrigation congresses and of the agitation for and passage of the recent irrigation act of Congress. Secretary Maxson said: "Too much credit cannot be given to President Roomevelt for his part in the passage of the irrigation act. To his firm stand for irrigation legislation at this session, the passage of the bill is undoubtedly due. His objections to cirtain features in the Senate bill brought about the improvement of the speasure antil it lies finally passed, and it is such a bill as the champions for a home-building measure have contended for. President Roosevelf has a more intimate knowledge of the West and its useds than any former President. His long residence there gave him an unusual opportunity to study its resources, and to his practical suggestions and firm stand the West owes the passage of a law that will be far-reaching in its effects. It is not too much to say that without President Rooseveit's aid, the reclamation of the arid lands of the West would have been indefinitely postponed."

Mrs. Gilbert McClurg of this city, responding for Mrs. Denison, president of the General Federation of Women's Clubs, extended the greetings of the federation. Referring to the meeting of the General Federation of Women's Clubs in Los Angeles last May, Mrs. McClurg said: "The Colorado women, later joined by those of California, introduced at the blennial convention of the General Federation of Women's Clubs in Los Angeles, in May, a resolution was adopted unanimously. COLORADO SPRINGS (Colo.) Oct. 7.

—One of the strongest addresses of the day was that of President Slocum of Colorado College, who told of the need of more extensive education of the young people of the land in applied sciences in order that they may make the most intelligent use of the benefits of the irrigation law. He said he expected the time to come, if it were not already at an end, when irrigation engineering must be as important a branch of university education as mining engineering is today.

that he believed the Irrigation act would never become a law without the cooperation and assistance of the President, following this with the declaration that no one but the President could ever have overcome the opposition to the bill in his (the President's) own party.

Congressman Reeder of Kansas, who was the author of the Reeder Bill, which was the irrigation bill in line for passage when it was supperseded by the bill which became a law, spoke of the history of the bill.

Tonight's session of the congress was held at Colorado College, where a stereopticon lecture on "Ancient Forms of Irrigation" was followed by a reception. Tomorrow morning will be given up to addresses by visiting Congressmen and Senators, and the afternoon to a discussion of the practical phases of the present irrigation situation by Chief Hydrographer Newell of Washington, and by several State engineers of the West.

"Our foreign commerce, like the productive and consumptive capacity of our people, has increased more rapidly than our population. Since 1860 our population has multiplied by two and one-half, while our foreign commerce has multiplied by three and one-third. Thus our very prosperity redounds to the advantage of those across the seas, who supply that which we do not produce.

### POLITICAL. **GUESSING AT** MAJORITIES.

Lane's Vote in Frisco Running Backward.

Good Work Elsewhere Will Beat Him.

Large Audience Hears Pardee Speak at Chico—The City Brilliantly Lighted.

SAN FRANCISCO, Oct. 7.— [Exclusive Dispatch.] A few days ago, it looked as though Lane would carry San Francisco by at least 15,000, and that Pardee would have to come to San Francisco with more than that number of votes to gain the election. But the tide is turning. Unless all signs fail, Pardee and all the candidates on the Republican tleket are gaining both in San Francisco and throughout the State, and this in the face of the very active campaign being made by Lane and some of the Democratic nominees for Congress.

Old political estimators have been canvassing San Francisco, and they say that the Republican tidal wave that will sweep over California next month will be the largest in the history of the State. They declare that all farmers and producers are bitterly hostile to any tariff-tinkering, and they refuse to accept the sophistries of Lane that Democratic success will mean better wages for the workingman and better prices for all California products. Many workingmen also are in favor of Pardee, because he shows logically that the Republican platform means a continuance of the prosperity that has made the country richer than ever before.

What Lane's majority will be in San Francisco is purely a matter of conjecture, but some of the shewedest observers do not see how he can get myre than 8000. Lane is making his calculations on the last election, which carried Schmitz into the Mayor's chair. He (Lane) thinks he can get all the Democratic votes cast for Tobin as well as all Union Labor votes cast for Schmitz. This is absurd, as many Democrate will not vote for him, and he cannot get all the Union Labor votes, as many members of the Union Labor votes.

The Democrata will not vote for him, and he cannot get all the Union Labor votes, as many members of the U

as many members of the Union Labor party are Republicans at heart, and will support Pardee.

The Democrats are badly split up, and each seems to be looking out for thimself. All the strength of the organization is centered on putting Lane in the Governor's chair, and in this effort, every other consideration is sacrificed. The Examiner, however, which forced E. J. Livernash upon the Democrats and Union Labor party as nominee for Congress in the Fourth District, is booming Livernash more than Lane. Other Democrats stand ready to trade away every possible political advantage of the future to win the gubernatorial prize.

The Republicans, who are fully advised of the Democratic plan of campaign, are firmer than ever in their support of Pardee, and the whole ticket, State and Congressional. It is common talk in political circles that the millionaire Phelan, who is nursing an an ambition to become United States Senator, is secretly helping the Democratic nominee for Governor. The

ambition to become United States Senator, is secretly helping the Democratic nominee for Governor. The members of the upper branch of the Legislature elected this year will vote two years hence for a United States Senator to succeed Senator Bard. A Bomody Which Has Exvolutionized the Treatment of Stomach T reables. The remedy is not heralded as a wonderful discovery nor yet a secret patent swedicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles with which nine out of ten suffer.

The remedy is in the form of pleasant tasting tablets or losenges, containing vegetable and fruit essences, pure asentle pepsin (government test.) golden seal and disatuse. The tablets are sold by druggists under the name of Stuart's Dyspepsia Tablets. Many interesting experiments to test the digestive power of Stuart's tablets show that one grain of the active principle contained in them is sufficient to theroughly digest 2000 grains of raw meateggs and other wholesome food.

Stuart's tablets do not act upon the bowels like after dinner pills and cheap cathartics, which simply irritate and infiame the intestines without having any effect whatever in digesting food or curing indigestion.

If the stomach can be rested and assisted in the work of digestion it will very soon recover its normal vigor, as no organ is so much abused.

This is the secret, if there is any secret, of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a few years ago, and now the most widely known of any treatment for stomach weakness.

This success has been secured entirely upon its merits as a digestive pure and simple because there can be so stomach, trouble if the food is promptly digested.

Stuart's Dyspepsia Tablets act entirely on the food eaten, digesting it completely, so that it can be assimilater into blood, nerve and tissue. They cure dyspepsia, water brash, sour stomach, gas and bloating after meals, because they furnish the digestive

They cure dyapepsia, water brash, sour stomach, gas and bloating after meals, because they furnish the digestive power which weak stomachs lack, and unlers that lack is supplied it is uselean to attempt to cure by the use of "tonics," "pills" and cathartics which have absolutely no digestive power. Stuart's Dyapepsia Tablets can be found at all drug storea, and the regular use of one or two of them after meals, will demonstrate their merit better than any other argument.

OAKLAND, Oct. 7.—Charles Nicademus, for whom eastern authorities are searching in order that a large estate can be settled, died the latter part of the year 1899, in the Stockton Hospital, where he had been sent from this city.

At one time he was a prominent official in an insurance company. Nicademus fell in love with the girl that the manager of the company was to marry, and his love was returned. Nicademus claimed that he was railroaded to an insane asylum in the East, from where he escaped with the aid of the girl he loved, and both came to California. He secured a good position here, but the persecutions of the manager of the Chicago firm loss him the position, and he finally took to drink. He went from had to worse, until he appeared regularly in the Police Court on charges of drunkenness. He finally became violent, was examined, and committed to the Stockton asylum, where he died. REDDING, Oct. 7.—[Exclusive Dispatch.] A six-horse freight outfit of horses, wagon and load belonging to M. Futhey, freighting between Redding and Trinity Center, went over the grade on Trinity Mountain, Priday, and the wagons, horses, freight and driver rolled to the bottom of the ravins, 300 feet below the road. Six hoxes of giant powder that made up the load struck with considerable force on the rocks below, but did not explode.

Futhey was not injured, though he was pinned down for a time beneath the debris. One horse was instantly killed and two others were injured so they had to be shot. Futhey has just MAN, HORSES AND POWDER.

NEVADA CITY, Oct. 7.—E. H. Prentice of the Southern Pacific Company was in Nevada City today consulting with the Chamber of Commerce, with a view, it is said, of having a large eastern company with a big capital come to Neyada county to open up placer ground.

The company, it is stated, perfected a process for extracting gold from placer ground without the use of water. The company asked absolute title to some placer ground with which to demonstrate its methods. In case of failure the land is to revert to the original owners. Thousands of acres of placer ground in Nevada county has been idle for years because of the anti-débris law. MAY REOPEN MANY MINES

WASHINGTON, Oct. 7.—The annual encampment of the Sons of Veterans began at Carroll Hall today. The proceedings, which were private, consisted of the submission of the reports of officers and of other routine work. There was a public reception at noon, at which specches were made by Chairman McFarland, Commander-in-chief Torrance of the G.A.R., Chaplain-in-chief Ennis of the Sons of Veterans, C. B. Warner, chairman of the local committee, and others.

Gen. Torrance, in his address, said that, the members of the G.A.R. had not been as liberal with their sons as they should have been, It was but natural that the veterans should feel that to them especially had been entrusted the "Ark of the Covenant," but they should bear in mind that the time was fast approaching when they must surrender that Ark, and surely none could be found more worthy to assume the responsibility than the sons of the men who had saved the Union and preserved its institutions.

Chaplain Ennis assured Gen. Torrance that the Sons of Veterans appreciated the confidence of their sires, and said that as the fathers had builded a sure foundation, they would try to build worthily upon it.

At 3 o'clock, the Sons gave a reception, which was repeated at night. The latter event was in honor of the Commander-in-chief of the Orand Army, the officers of the Sons of Veterans, and the ladies constituting the auxiliary societies.

WASHINGTON. Oct. 7.—United States Minister at Tokyo has transmitted to the State Department a long report upon trade conditions in Japan, in which he says that the foreign trade of Japan for the year 1901 was marked by many unfavorable features, but there was at the same time a distinct recovery from the evil conditions from which it suffered during the previous year. The existing conditions he ascribed to excessive government expenditures.

According to the Minister, United States imports into Japan were smaller in 1901 than in 1900, owing to the decline in quantity of raw cotton material. BEGIN ENCAMPMENT

JOBS FOR AGITATORS.

LONGSHOREMEN WILL PAY.

[BY THE ASSOCIATED PRESS-AM.]

PORTLAND (Or.) Oct. T.—Delegates from all important points on the coast from San Diego to Nome, Alaska, were in attendance today at the opening session of the first convention of International Longshore, Marine and Transport Workers' Association of the Northwest. Daniel Keefe, the international president, presided. The main work of today's session was to perfect plans for the establishment of a central organization, to have charge of the work in the Northwest, and the committee that had this in charge proposed in its report that a per capita tax be levied on all the unions for the purpose of keeping an organizer and a paid secretary, who would have charge of the Coast work, and through whom the local difficulties could be reported. This will facilitate action without having first to consult the national organization.

ACTS ON COAL SITUATION.

[BY THE ASSOCIATED PRESS—A.N.]

CHICAGO, Oct. 7.—Action was taken
by the City Council last night in an atfrom the coal atrike. A resolution was passed without debate requesting the Mayor, City Comptroller, City Treasurer, Commissioner of Public Works and City Clerks constituting a committee to ascertain as soon as possible the lowest cost at which Indians or Illinois coal can be delivered in Chicago in quantities of 500 and 1000-ton lots to the end that coal may be brought to this market and sold to consumers at its actual cost for delivery.

Ask any of the men of Southern California and Arizona, whom I have treated and cured, as to the positive efficiency of my original and painless methods-they are best qualified to speak from experience of my ability as a specialist in MEN'S DISEASES. I CAN SAY THIS FOR MYSELF THOUGH AND THAT WITH RINGING EMPHA SIS-IF I CANNOT CURE YOU, YOUR CASE IS HOPELESS,

Bear in mind this point-I will not take a case that is incurable. If doctors with limited experience in the diseases of which I am master, have teld you that your case is beyond their power to cure, or even benelit, do not take their say-so as final. but come to me and I will give you a thorough examination and diagnose your case correctly, for which, I will make no charge,

A veteran hardware man says that a great deal of the corrosion of gas stoves, which has recently been complained of in Los Angeles, may be easily avoided. He says that when the housewife has finished any cooking operation, such as baking, where there has been a considerable deposit of moisture from the cooking, the gas should not be immediately turned off when the cooking is finished. By keeping the burner going for a few minutes, the moisture gathered in the oven or elsewhere may be evaporated to it will not corrode the metal.

The proposition made by Mrs. Nelson is plausible and is well calculated to catch the unsuspicious. She offers, in brief, an agency for publications with the stipulation that the agent shall work eight hours daily for a month, and if she is "satisfactory" under numerous provisos, it is promised her she will be appointed "field manager" with good wages. However, it is the experience of those who have "bit" that they are out the 37.50 demanded as a "guarantee of good faith," and have their thirty days' labor for their pains.

Steamer for Seattle and Found no

Went Down to San Pedro to Catch Steamer for Seattle and Found no Steamer There.

"It is an imposition and the public should be informed of the facts," declared a very indignant young man yesterday, in speaking of the steamship service offered by the Merchants' Independent Line.

Frank A. Totale was in a hurry to reach Seattle. He chose to travel by water, and thought he would save a few dollars by taking a Merchant-line steamer. He secured his ticket, and was informed that the Santa Barbara would sail from San Pedro last Saturday. He went to the port to find the boat, and there met two ladies on a similar quest. Ater much trouble, the Santa Barbara was located. "Why did you come down here?" said the captain. "This beat does not leave until some time next week."

The ladies were much at a loss to find quarters, and finally the captain let them come on the boat. Thele returned to town, and sought out the local office of the line, where he read the riot act.

"I find that this so-called steamship line does not own any boats, and that it merely secures passage for passengers in the cabins on freighting vessels," said Thiele yesterday. "Only recently I came from the East, and I was undoubtedly taken in. The boats run whenever they get ready, and take as long as they please in reaching the destination called for on the ticket. The contract on the back of the ticket, which nobody ever reads, absolves the organization, or company, or whatever it is, from all responsibility. The difference in the cost of passage to Seattle is only \$6, and I feel that easterners should be given some protection from the claims of this steamship line."

A pretty wedding and one of interest to a large circule of friends and acquaintances took place at \$ o'clock last evening in Immanuel Presbyterian Church, when Miss Bessle May Copes, daughter of Mr. and Mrs. J. M. Copes, daughter of Mr. and Mrs. Martin McMillan, who attended as maid of honor: Miss Ida Bowen and Miss Maude Curtis, bridesmaids, and Miss Regina Nauerth, Miss Neille Hutchinson, Miss Clara Gibbs and Miss Josefina Duque, who ushered. Louis Masten of Phoenix, Arlz., was best man. The appointments of the wedding were in green and white, and the front of the church was massed in bamboo and other greenery, contrasted with a few white flowers. Miss O. Donoughue, who was at the organ, played during the entrance of the guests and announced the approach of the bride and attendants by the "Bridal Chorus" from "Lohengrin," consecrated by long usage as the processional at bridals. The bride's dress was of dainty white organde over white taffeta, cut demi-traine. The skirt was tucked from the waist to the deep-shirred flounce, and the waist was tucked, the yoke being outlined by chiffon and silk medallions. The pretty costume was nearly hidden by a long tulle vell which was fastene i with orange blossoms, and a shower bouquet of bride's roses was carried. The maid of honor wore a pretty gown of pink silk tissue, and carried pink carnations, while the bridesmaids wore graceful toilettes of soft green silk mousseline de soie and carried white carnations and maldenhair fern.

wore graceful tollettes of soft green silk mousseline de sole and carried white carnations and maidenhair fern.

A pretty feature of this especial wedding was the part that the ushers played. They entered first, and advancing up the center alse to the platform, lifted lengths of smilax that were in readiness, and two walking back to the center door, they shut off the pews and outlined a path for the bride with ropes of green smilax. The maid of honor, and then the bride advanced with her father, who gave her away. They were met at the altar by the groom and best man. After the vows were interchanged, Mendelssohn's "Wedding March" was played as the bridel party and guests left the church. The church service, which was largely attended, was followed by a reception at the Copes residence on West Eighteenth street. Both pariors were decorated in green and white, the bride and groom receiving under a canopy of smilax. The dining-room was in pink and white. Punch was served in the hall on the second floor and in all adjoining room the presents were displayed. They were both numerous and costly, the charming bride who has resided in the city for nine years having many friends, especially in Immanuel Church, where she is an active member, a worker in the Young Ladies' Auxiliary and organist in the intermediate department of the Sunday-school. Many gifts were also received from Phoenix, the former horse of the groom, and whose gift to his bride was a beautiful Yose plano in a rosewood case. Mr. Wood is superintendent with the "Out West" Publishing Company.

After the reception and wedding supper at the family residence Mr. and Mrs. Wood left the house for the Hellenbeck Hotel, this morning starting for the north on a trip of several weeks" duration. They will have apartments at the Hotel Breadway on their return, until their pretty home in the Westlake district is completed.

Golden Wedding.

Golden Wedding.

Mr. and Mrs. George Ordway of No. 2522 South Grand avenue celebrated their golden wedding Monday evening, the date being the fiftieth anniversary of their marriage in Freeport, Ill., October 6, 1852. The unique invitations which were issued for this later occasion were of the ordinary size and shape and were adorned with cuts made from daguerreotypes taken in their early married life. The rooms were profusely and appropriately decorated with golden-hued flowers, arranged by the hands of loving friends. Numerous presents were received and many congratulations came from friends who could not be present. Miss Lulu Barker and Miss Ella Hammers contributed several musical numbers Lulu Barker and Miss Ella Hammers contributed several musical numbers to the enjoyment of the occasion. Silver Wedding.

Mr. and Mrs. L. N. Evans were pleasantly surprised Saturday evening at their home. No. 128 North Hill sireet, by members of their household and friends from Central Presbyterian Church, the occasion being the celebration of their twenty-fifth wedding anniversary. A programme of vocal and instrumental funsic was given by Miss Mae Abbot, soloist of Central church; Miss Anna Douglas, Miss Meta Marquis and W. Lambert. Refreshments were served, in the course of which W. L. O'Neill, in happy fashion, presented the bride and groom with pleces of silver in remembrance of the occasion.

Mr. and Mrs. Evans were married in Anaheim, where they resided until 'Si, when they came to Los Angeles to live. They have one son, Merton, a young man of twenty-three, who occupies a position as assayer in mines in Butte county, and was not able to be present Saturday evening. There were between thirty and forty guests and the elders had many amusing stories to tell of the old days in the valley. The evening was most enjoyable to both hosts and guests, and the latter left voicing the hope of a golden anniversary and another reunion of old settlers.

The several concerns that have gone to make up the Associated Oil Company of Kern county have made a strange request of their stockholders. The request is made that all holders of certificates who have not so far given their consent do so.

ANOTHER CAR FAMINE. northern oil districts, says the Bakers-field Californian. This circumstance is not due to a lack of cars, exactly, but is due to the fact that the railroads are using most of their transportation fa-cilities to fill up the immense tanks they are stationing along their lines.

These they are filling to their full capacity, as rapidly as they are able, and in doing so they are exhausting the car supply, and are placing the companies in a hard position in living up

to their contracts.

One of the largest tanks that the roads are now building will hold more than the capacity of 100 of the biggest cars in use—half a dozen train loads. It will thus be seen that when a tank is completed and the filling process begins, demand is made that is far above the ordinary. TO PROSPECT AT OTAY.

BACK TO THE LAND. The National Irrigation Association

is holding its tenth annual congress at Colorado Springs. This is the first of the annual meetings that has been held since the fruit of the asso-ciation's labors was made apparent, in the shape of a national irrigation bill, and therefore special interest attaches The leading address at the congress

delivered by Thomas F. Waish, the president, as published in The Times of Tuesday, was more than usually ineresting. Mr. Walsh paid a glo tribute to the President, and said that his message to Congress, in December, 1901, marked the beginning of a new ica, placing the cause of national irrigation in a position where it could no longer be denied a hearing. Without the powerful aid of the administration the association could not possibly have succeeded in inaugurating the

new policy at so early a day.

Mr. Walsh went on to say that the inauguration of the national irrigation policy means much to all our Western States. It will add immensely to their wealth and population, and greatly broaden the basis of their prosperity. It means even more to the nation, as a whole. It opens the way to a new era of internal development and domestic expansion, as great as any sim-ilar period of its magnificent past. It is equivalent to the addition of a new empire as important as that drained by the Mississippi River and its trib-

utaries.
These results, however, great as they are, are not the most important considerations in connection with the na-tional irrigation movement. As Mr. Walsh showed, the inauguration of na-As showing how small the world has it means that the door is open to permit the man who is not needed where mit the man who is not needed where he is to go to the place where he is needed. Continuing, Mr. Walsh said:
"What does it mean to the nation to have millions of people gradually pass from the servitude of the town to the sovereignty of the country? It means, my friends, the enlistment of a new army for the defense of the republic in every hour of need. Give a man a home upon the soil, and you have made him the patriot who will defend your institutions at the ballot box and on the battlefield.

"Open the doors of the West, and you need not worry about the future. Let the people have any access to the land and most of our other troubles will settle themselves. The property owner is a conservative man who loves his family and his country. Then, let the property owners be as numerous as possible."

Another interesting phase of the subject, referred to by the president of the irrigation congress in his address, was the opening which is thus made for practical benevolence, in assisting thousands of deserving people, now living in the overcrowded cities, to assured of a supply from Southern to afford even the costs which attach for the enforcement of the taking up of a supply from the fields are near the to the taking up of a supply from the fields are near the to the taking up of a supply for the enforcement of the enforcement of

### THE NEW ORLEANS STRIKE.

Electric Railway Company recently made certain demands upon their employers. These demands, after due company's employ, as they had a per-fect legal and moral right to do. If the matter had ended there, no particular harm would have been done. The uch difficulty, and with little or no soon have been forgotten, and there would have been no breaking of the in a body, did not exceed their rights.

The men who were willing to take

If such had been the result, and the whole affair had been conducted peacefully, the strike would have been legitimate in every way, and the strikers would have won an honorable victory.

The actual results of the contest were far different. It is the old, old story, nauseating. After leaving the employ of the company, the strikers addressed themselves to the illegal and indefensiole work of "tying up" the company's thereof. In the furtherance of this llegal object, wires were cut, tracks demotished, and men in charge of the cars were brutally beaten or killed. sor is hard," although there have union employés being dragged from cars, beaten unmercifully hy gangs of cars, beaten unmercifully by gangs of cowardly ruffians (otherwise union men.) and forced on pain of death to never learn that their finish is sure? men.) and forced on pain of death ro

man could insist that in failing to nove its cars, under such conditions, the company should forfeit its charter? Yet an attempt has been made to set up this claim at New Orleans, as similar attempts have frequently been made elsewhere, under similar condiadded, with success. The Mayor of New Orleans is evidently a cheap demagogue, and to this fact is doubtess attributable, to a great extent, the criminal excesses of which the strikers have been guilty since they quit the service of their employers. The Mayor ordered the company to resume the operation of its lines or forfeit its charter. An attempt on the part of date led to more rioting, more cutting more smashing of cars, more beating

of non-union employés. The position in which the strikersdemagogues in positions of authoritycompany, is substantially this: The lines must be operated regularly; if lines with employes other than members of the union, its property will be destroyed and its employes maimed; if the company fails to operate its lines regularly, without reemploying the strikers, its franchise will be taken away and its property will be rendered practically worthless. What essential difference is there be-

Conditions similar to those noted above are being created almost daily through the inordinate, illegal and unreasonable demands and acts of strikers. We claim that we live in a free country. by Mrs. Noah Brandt.

Enid is a wonderful child; there could be no gainsaying that even if there should exist people who desired to gainsay it. Her memory is miraculous and her ear is absolutely perfect. These are two gifts which are purely of nature. One need only glance at the above programme to realize that any child of 9 who can memorize and perform such works is, perforce, a marvel. Her technical achievements are an elasticity of muscle and facility of finger which prove hard, heavy practice and constant effort. A child's muscles are easily flexible and, viewed from an antomical standpoint, it is not, strictly speaking, a thing passing comprehension that this little one's fingers should obey her so well.

Yes, Enid is truly a wonderful child, but it must be remembered that in comfing to Los Angeles she came to a city of wonderful children. The gift of absolute pitch is not hers alone.

Yes, Enid is truly a wonderful child, but it must be remembered that in coming to Los Angeles she came to a city of wonderful children. The gift of absolute pitch is not hers alone. Olga Steeb, for instance, equally possesses it and a remarkable technique. Edna Darch has a perfect ear. Paloma Schramm is a wonderful musical idealist and a most prolific composer; and even little Gertrude Cohen has an astonishing memory. Therefore, when little Enid plays in the same hall in which these others have been heard, she cannot fall to be judged by the comparative and not by the superlative standard. In common parlance, she burst upon San Francisco as a tive standard. In common parlance, she burst upon San Francisco as a comet, but she does not strike Los An-

she burst upon San Francisco as a comet, but she does not strike Los Angeles in the same way.

The little child is sweet and charming to look at. Her simple baby, ways are a perpetual delight. It is claimed by her friends that she is never tired by her concerts and that her hours of practice do not exceed two per day; but, withal, she gives the impression of extreme delicacy and tremendous nervous strain. Her eyes, after her immense exertions last night, had a noticeable brilliancy and she seemed anything but virile. Were it not for the assurances of her friends, one would feel that this tender talent was being pushed to the limit of physical and mental endurance.

This is only an impression, of course; and impressions are likely to be wrong—even though they remain indelible. Last night Enid several times missed, her notes, and her tone is not singing in quality, but these things are well.

THIRTY NEW CARS.

Coming at Once for Los Angeles Railway-Hundreds Going East on Santa

The cars for the Los Angeles Railway Company are expected to arrive here from St. Louis within two weeks. Before the end of the month thirty elegant new coaches will have been added to the local service, and they will come stringing along from the East as fast as they can be shipped from the factory. One consignment was started on Sunday.

General Manager Muir and Superintendent Akin were in consultation yesterday afternoon with reference to assigning the new cars for use here. The West Ninth-attreet line and the Downey-avenue line are to be newly-equipped at once, and the old cars transferred to the Maple-avenue and Central-avenue lines.

Mr. Muir says that traffic is so large

Central-avenue lines.

Mr. Muir says that traffic is so large
that even now new and old cars are
none too many to afford the service
that is necessary, and this winter
they will be crowded.

The new cars in size and quality
will be similar to those now used on the
University line. "BACK EAST" EXTENDED.

The sale of "Back East" excursion tickets began yesterday in all the local railroad offices, and the demand cal railroad offices, and the demand was even better than anticipated: Today will be the last day of the sale, but it was officially announced yesterday that tickets are extended for use any time within ten days, so long as they permit passengers to arrive at destination before the going limit of ten days expires. In other words, allowing four-days to reach Chicago, a ticket bought today need not be used until October 14.

This extension will be good news

til October 14.

This extension will be good news to many intending purchasers, and will also relieve crowded train service eastward for today.

That many people are jumping at these cheap rates east is evidenced by the fact that about two hundred and fifty persons took the Santa Fe overland at La Grande depot last night and probably 150 more were picked up at by-stops between here and San Bernardino. Other lines report a similar rush.

Thomas F. Fitzgerald, the newly elected president of the National As-sociation of Traveling Passenger Agents, will arrive this morning. To-day will doubtless be a gala day at Texas and Pacific headquarters.

The Pacific Electric Rallway Com-pany will take about a hundred Santa. Ana people to Mount Lowe on Sunday. L. M. Fletcher, Pacific Coast agent of the Missouri Pacific, is here from San Francisco.

KANSAS CITY, MISSOURI. Lieutenant-

Ladies of the

Commander of the

Maccabees Lodge.

In my official capacity it is to my interest to see that members of our society are in the best possible physical health. Having had occasion to use Wine of Cardui myself and having found it a remedy of no ordinary merit but far above anything I have ever known, and being especially adapted to cure all the ills to which women are subject. I have often taken occasion to recommend it and I have never yet had any reason to regret it, for in every instance I have found it most helpful. It not only effects a quick cure, but those who have taken a thorough treatment of this very meritorious medicine seem to be renewed from head to foot, so that they are particularly immune from catching diseases and colds, which are really the beginning of the majority of them. Since I have used Wine of Cardui myself I feel in excellent physical condition and have no need of doctors or other medicine. I consider it a most desirable family remedy and as I have observed for the last three years the very satisfactory results obtained, it is with great pleasure I give public endorsement to Wine of Cardui, as I have many times done privately. 633 Troost Ave., KANSAS CITT, Mo., March 28, 1902.

THE Ladies of the Maccabees is one of the largest fraternal insurance organizations in the country and sickness and death among its members call for benefits to be paid out of the treasury of the order. The great organization is entirely in the hands of women who have so successfully conducted its affairs that among the secret orders for women the Ladies of the Maccabees is regarded as a model. Among the leaders of this great order is Mrs. J. M. Powell of Kansas City, Mo. She is a lady of high inteligence and as licutenant-commander of the Kansas City lodge has the welfare of the organization more or less in her keeping. She says: "In my official capacity it is to my interest to see that members of our society are in the best possible physical health." Clear judgment prompts her to recommend Wine of Cardui to the members of her organization.

Wine of Cardui has benefited every woman who hastaken it. Such every woman's confidence in the time of cardui will cure any uncomplicated cases of irregular periods and bearing down pains. It is not a strong medicine but it saluable during pregnancy, at cliliders of life. It is not a strong medicine but it is not a strong matural way. It strengthens the nervous system, act
